

BusinessVideo Surveillance

1. Purpose. The Board authorizes the use of video cameras and other passive electronic measures (such as motion detectors) for the purposes of ensuring the health, welfare and safety of staff, students and visitors, safeguarding District facilities and equipment, and maintaining student discipline and an appropriate educational and work environment.
2. Placement. Video cameras and similar devices are authorized to be used on school facilities, school vehicles and other places within the control of the District. The locations in which the devices will be placed and the times the devices will be in use are to be determined by the Superintendent or the Superintendent's designee consistent with the purposes set forth in this Policy. The devices shall not be placed or operational in locations in which individuals have a high expectation of privacy, such as restrooms and locker rooms.
3. Notice. Notice of the fact that video surveillance cameras are being utilized shall be given through appropriate mechanisms, such as by posting signs in the building entry and other locations and by including a notice in the student-parent and staff handbooks.
4. Viewing Monitors and Video Recordings. Monitors used to view video recordings are to be located and positioned such that only authorized personnel are able to see the images on the monitors. Only authorized personnel shall be allowed to view recorded video. Authorized personnel for these purposes are: school administrators, school staff members with a direct involvement with the recorded contents of the specific video recording and employees or agents responsible for the technical operations of the system (for technical purposes only).

School administrators may allow law enforcement officers to view monitors and recorded video when such is consistent with school security and discipline and consistent with law.

Students shall not be permitted to view the monitors. Students shall not be permitted to view recorded video except where the individual student is the focus of the recorded video.

5. Use of Video Recordings. Video records may be used as a basis for student or employee disciplinary action and for making reports to law enforcement.
6. Video Recordings as Education Records. Video recordings which are considered to be "education records" within the scope of FERPA shall be maintained in accordance with FERPA and other applicable laws. A video recording may be considered an education record when a specific student is the focus of the video recording.

For example, if the video recording shows a student violating a school rule, the video recording is an education record of that student. It may be viewed on request by that student's parent (or the student if age 18 or older). The video recording may not be viewed by, nor will a copy be given to, others without the parent's written consent unless a FERPA exception exists.

In the event more than one student is a focal point of the video recording, it may be an education record of each such student. This would be the case, for example, if two students are recorded fighting. In that event, the school would allow both set of parents an opportunity on request to view the video, but will not give a copy of the video to either set of parents, without the written consent of the other student's parent.

7. Maintaining Video Recordings. The District shall comply with all applicable state and federal laws related to record maintenance and retention of video recordings. Video recordings that contain personal information shall be securely stored and, when such recordings are no longer needed or required to be maintained, shall be properly disposed of or erased.
8. Maintaining the Integrity of the Video Surveillance System. The building principals shall be responsible for periodically checking the video surveillance system within their building to ensure it is operating properly. Students or staff who vandalize, damage, disable, or render inoperable surveillance cameras or equipment, or use the video surveillance system in a manner that is not consistent with the purposes set forth in this Policy, shall be subject to appropriate disciplinary action (up to and including expulsion, for a student, and termination, for a staff member) and referral to appropriate law enforcement authorities.
